Foreword

香港社會追求公平、進步,同時健康生活亦是每一個人的想望,但健康並不是口號,也不是單純屬於醫護的責任。醫護行者相信要廣大人士都可以達到最佳健康狀態,必定要有政策針對不同影響健康之社會因素。

我們明白到低收入在職家庭缺乏健康資訊,不懂得處理自己健康上的問題,更甚是沒有足夠的資源以應付疾病帶來的影響。因為家庭經濟的限制再加上百物騰貴,令整個家庭的生活質素不斷下降;這些家庭成員的健康指標亦不斷受沖擊,形成一個惡性循環。我們透過跨專業的醫護團隊,以家庭為單位並為各家庭成員提供適時適切的服務。同時,我們亦將醫社合作的概念提升至「社醫共生」:意思是被服務社群之「影響健康的社會因素」 (social determinants of health) 應要引導及影響醫護在社區的工作,並以社福為先,才能真正達至「社」和「醫」發揮到協同作用,帶來持續性的改變。社福團體及各地區工作者在協助大衆處理包括居住環境、食水及食物安全、就業、安全工作環境、精神壓力、家庭及社區關係、善用社區支援服務和尋求醫療服務等既重要也是直接影響到健康生活程度。

故此醫護行者一直在社福平台推動社醫共生工作模式並協助 其他機構發展基層醫療項目,並倡議各公共政策上實踐以健康為中心的思考去制定預算和措施。

邁可·約翰·坎邦爵士説:「我們必須將減少健康不平等問題 作為我們公共衛生的核心,並要對健康的社會決定因素採取 行動。」我們應致力以社會參與和改變來消除社會健康不平 等現象。

醫護行者 Health In Action

Founded in 2011 as a Hong Kong-based non-profit organization, Health in Action (HIA) holds humanitarian belief and is highly concerned about the wellbeing of the impoverished and underprivileged people in Hong Kong and South East Asia countries. HIA has achieved improvements on health equity of underprivileged by promoting innovative primary health care services, creation of multiple platforms for socio-medical collaboration and advocating for Health in All Policies (HiALP). HIA is independent of any political, religious and business interests; we are members of HKCSS, CUHK Institute of Health Equity and Health consultants of numerous local NGOs.

醫護行者(HIA)成立於2011年,是一間位於香港的非營利組織。它秉承人道信念,並高度關注香港和東南亞國家的貧困人口福祉。醫護行者通過推動基礎醫療服務,並創建多個社醫共生工作模式和平台,以健康融入所有公共政策(HiALP),來改善弱勢社群的健康平等。 醫護行者是獨立於任何政治,宗教和商業利益;現為社聯及中大健康平等研究所的成員,並是眾多當地非政府組織健康的顧問。

Vision and Mission 願景和使命

To eliminate health inequity in societies 消除社會上健康不公平的狀況

ADVOCACY 倡議

Advocate humanitarianism and rightto-health through community-based initiatives

透過社區項目倡議人道及健康人權

EMPOWERMENT 賦權

Empower underprivileged population by enhancing their health literacy and health ownership 提升弱勢人口的健康識能,增加他們掌控個人健康的能力

SYSTEM CHANGE 改變制度

Enable the underprivileged to overcome inequitable barriers in the social system and to achieve healthy status 幫助弱勢社群得到健康,跨越不平等的社會制度障礙

Core values 核心價值

Make Changes 締造改變

We believe there should be structural and conceptual changes to achieve health equity in the society. We aim at making social changes through inspiring actions.

我們相信要逹至社會健康平權,必須從結構及觀念作出改變。我們致力透過地區工作啟發社群、帶動社會正向改變。

Community Focus 社區為本

We believe in people's potential and capacity. We serve at the community level and work with partners in the community.

我們相信人人皆有天賦才能。我們提供社區服務並與社區夥伴合作。

Volunteerism 義工主導

We do not work for personal benefits. We work with volunteers and value their contributions in our cause. 我們不謀求個人利益,致力從事義務工作。我們與義工同行,重視他們的工作,共同為理念齊足並馳。

Sustainable Action 可持續性

We believe that the impact of our actions should be sustainable in order to induce positive and long-term changes. We assess the impact of our actions not only on its immediate effect but also on its sustainability. 我們相信行動的影響須具持續性,才可為社會帶來長遠的正面改變。回顧過往的行動時,我們不單着重於即時的成果,更着重影響的持續性。

What is Health Inequity? 什麼是健康不公平?

Health inequalities are differences in health status or in the distribution of health resources between different population groups. Social factors, including education, employment status, income level, gender and ethnicity have a marked influence on how healthy a person is. The lower an individual's socioeconomic position, the higher their risk of poor health.健康不平等是指存在於社群中的健康差異和健康資源分配不均。教育、就業狀況、收入水平、性別和種族等因素奠定了個人健康狀況。一個人的社經地位越低,面對健康問題的風險越高。

Social determinants of health (SDH) 社會的健康決定因素

The social determinants of health explain the contributing factors to health inequities - the unfair and avoidable differences in health status in the city. These determinants include the conditions in which people are born, grow, work, live, and age, and a wider set of forces and systems shaping the conditions of daily life.

社會的健康決定因素適用於解釋健康不平等的問題—城市中不公平和可避免的健康差異。這些因素包括人類的出生環境、成長、工作、生活和年紀,以及構成生活方式的社會系統和其他因素。

Health in all policies(HiAP) 所有政策面向的健康工程

Health Policy for All Policies set up by the World Health Organization provides guidelines for all public sectors to systematically consider the impact of policies on health, seek synergies and avoid harm to health so as to improve population health and health equity.

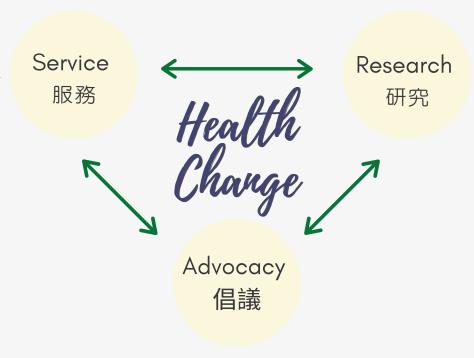

「所有政策面向的健康工程」 由世界衛生組織設立,為所有公眾界別提供方針,引導他們有系統地考慮政策對健康的影響、尋求協同合作和避免危害健康,旨在改善群眾的健康,達致健康平等。

Model for moving towards healthy city 建立健康城市模式

Through the cycle of Service, Research, and Advocacy, HIA strives to transform Hong Kong into a healthy city.

醫護行者透過服務、研究和倡議,致力推動香港成為健康城市。

Serve the vulnerable groups that are confronted with health inequity 服務面對健康不公平的弱勢群體

Raise awareness on health equity 提升香港的健康公平意識

Gather data from the services for further analysis 從各項服務中搜集數據並進行分析

Our Work 我們的工作

HIA has developed a framework to steer its actions in hopes of achieving its vision and mission. according to the framework, our work targets at one or more stakeholder groups in the form of Intervention, Integration or Influence with an aim to promote health ownership, health literacy and health equity.

為了達到醫護行者的願景和使命,我們制定了一套框架引導我們的行動。我們每項工作的目標受眾為一個社會群體或多個社會群體,並以「介入、融合及影響」的方式實踐健康自主、健康認知及健康平權的目標。

Integration 融入

Influence 影響

Health Literacy 健康認知 Access to health information 獲取健康資訊

Health Ownership 健康自主

Enhance one's capacity for making informed decision with regard to his/her health condition 能就個人健康事宜作出明智的決定

Health Equity 健康公平

Eliminate the differences in health profile due to injustice and unfairness 消除社會上因不公義及不平等問題而造成的 健康差別

Our Milestones

我們的歷程

 The first program for Asylum Seekers and Refugees in Hong Kong started 展開首個尋找身置香港的尋求庇 護者及難民的項目 Upon the completion of the health project in Metro Manila, the first Working poor Health Project started in Hong Kong 馬尼拉醫護項目完滿結束。我們在香港展開首個 在職貧窮健康項目。

• HIA has a formal office set up in Kwai Chung 醫護行者在葵涌設立辦事處。

2015

2013

 Health In Action was established with the first health program site set up in Metro Manila
 醫護行者於2011年成立,並於馬尼 拉設立首個健康項目工作點

 The disaster relief work for Typhoon Haiyan was launched 展開颱風海燕災後救援行動

- The HIA University Chapter was established with regular practicum placements 成立大學分部為學生提供實習名額
- The post-earthquake relief project also started in Nepal 尼泊爾地震災後山區項目亦隨即展開

- Received Special Consultative Status with the Economic and Social Council
 醫護行者成為聯合國經濟及社會理事會之特別諮詢地位成員
- Started Family health management program in Kwai Tsing area 於葵青區展開家庭健康管理計劃
- Published a survey report on the working poor's health access and cardiovascular risk 發表了一份調查報告關於當區在職貧窮人士尋求 醫療服務的情況和罹患心血管疾病風險

- Grand opening of Health In Action Community Pharmacy, Hong Kong's first transdisciplinary ASP pharmacy
 醫護行社區藥房隆重開幕
- Established mobile clinics in different districts to serve ethnic minorities 我們與不同社區伙伴合作,建立流動診所服務少數族裔社群。
- CIIF Social Capital Build Awards 榮獲社會資本動力獎2019

2020

2018

2016

2017

• Became an agency member of HKCSS. Communicated with Hospital Authority on Ethnic Minority group's health needs and advocated changes in legislation 成為社聯的機構會員,並與醫院管理局就少數族裔群體的健康需求開展對話,及倡議相關條例的立法

- Organized first annual Ethnic Minorities Health Symposium and conducted radio programme on promoting health equity 舉辦首屆少數族裔健康研討會及推廣健康公平的廣播節目
- Grand opening of Kwai Tsing Community Health Management Hub 葵青社區健康管理中心「葵家社康匯」隆重開幕

- Alliance with St. James Settlement to receive the contract to run the Sham Shui Po District Health Center 與聖雅各福群會合作,獲得深水埗地區健康中心營運服務合約
- Key Player in supporting the community during COVID-19, in the provision of health education and resources
 在疫情期間在社區擔當主要的支持者,提供健康教育和資源

Promoting "Social-Medical Symbiosis" 推動社醫共生

Access to health care is hampered in lower social class who faces inequity because of poverty (lack of resources), long working hours, low literacy, information gap, and lack of social determinants tackling in the community level

由於資源匱乏、工作時間長、識字率低、信息鴻溝以及缺乏在社區層面解決社會問題等因素,阻礙了弱勢社群獲得醫療服務的機會。

Therefore a trans-disciplinary team with primary care pharmacy to provide different health services open up the primary care access points. Health In Action health management hub also takes up the community health resource mapping role to manage the social determinants need of working poor and ethnic minorities, coordinate expertise and services within the health system and social systems.

因此,跨學科團隊設備社區藥房,提供不同的健康服務,從而提升基層醫療的切入點。 醫護行者還擔負著社區健康資源導向角色,以管理在職貧窮和少數民族的社會決定因素需求,協調專業人士和社會系統內的專業知識、服務。

Goal: 目標

-to promote primary care in the community with the collaborated effort of different organization 在不同組織的共同努力下,在社區中促進基礎醫療

District council - training after DC election in hub 與各區推動社醫共生

Health In Action provided 4 Social determinants of health training to DC members from 18 districts where we believe DC is a platform to improve community health through projects focusing on social determinants of health

醫護行者為來自18個地區的區議會成員提供了4次健康的社會性因素培訓,我們認為區議會是一個改善社區健康的平台,能有效發展及推行關注健康的社會性因素的項目。

♀ Kwai Tsing Community Health Management Hub 葵家社康匯

Kwai Tsing Community health management hub established in November 2018 is a one-stop health management centre operated by a team of health professionals including registered nurses, pharmacists, physiotherapists and nutritionists, together with social workers and other community volunteers. Person-centered and Family Health Management approaches are adopted to provide integrated health management services for the working poor and their family members

「葵家社康匯」於2018年11月設立,是一個由專職醫療團隊 (包括護士、藥劑師、物理治療師、營養學家) 聯同社工和其他義工組成的社區健康管理中心。我們的服務對象是在葵青區內在職低收入人士及其家人,為會員家庭提供一站式的健康管理服務。

Project objectives: 項目目標

- Enhance health literacy 提升健康適能
- Provide primary healthcare services 提供基層醫療服務
- Promote health ownership 推廣擁有健康的能力

♀ Ethnic Minority Health Project 少數族裔健康項目

Enjoying Health Together: Health Management Programme for Ethnic Minorities 少數族裔健康項目

In the past year, Health In Action has achieved the goal of promoting self-health management for early diagnosis of cardiovascular risk, as well as collaborating with partnering organizations to support and train health ambassadors to promote health in the community. We are also committed to improving social integration through a variety of health promotion activities.

醫護行者在過去一年的計劃中成功幫助少數族裔提升自我健康管理能力,讓他們能及早診斷和預防心血管疾病。我們連結社區各個團體推行健康大使培訓計劃以裝備少數族裔向社群發放健康資訊,同時透過社區參與提升公民健康意識,推動社會共融。

Project objectives: 項目目標

- Self-health management 自我健康管理
- Health Empowerment 健康充權
- Sustainable Health Promotion 持續的健康推廣
- Social Inclusion 社會共融

Health 7n All Policies 收健康共島融合版本

將健康考量融合所有政府政策

行者 Health In Action

To eliminate health inequity in societies 消除社會上的健康不公平

重健康,改政策-對2019施政報告建議 將健康考量融合所有政府政策

施政目的

從市民健康入手,發展「以人為本」的政策方向

醫護行者是次施政報告建議,非單只提出具體政策,也強調一個以「市民健康」為 中心的施政理念,發展出一套令香港得以長遠發展、與時並進的新出路。

施政方向

預防勝過一切

基層醫療發展緩慢, 追不上人口老化所帶來的醫療負擔。政府在過去兩年提及發展 基層醫療是一大突破。根據食物及衛生局的資料, 地區康健中心所提供的預防服務 包含三層:

第一層 預防

健康推廣、諮詢及輔導服務如戒煙輔 續、蘇物該詢等

康、精神健康、少數族裔健康問題等

健康教育活動包括飲食健康、婦女健

果效:

- 增長市民的健康年歲
- 減輕醫院或門診負擔
- 施政目的和方向從市民健康入手,發展「以人為本」的政策方向 Policy objectives and directions should be "people-oriented" and focus more on citizens' health

新聞稿

「空氣實素指標檢討」關注組 健康空氣行動 香港民意研究所 「香港空氣實素指標檢討意見調查」發佈會

建議隱藏魔鬼細節 近四分三受訪者反對政府修訂

【即時發布】

接要

環境局於7月12日就「香港空氣質素指標檢討」開始進行為期三個月的公眾諮詢,健康空氣行動及「空氣質素指標檢計」關注組(下稱「關注組」)早前委託香港民營研究所進行電話訪問,大部分3%的受訪者反對政府在收緊微細戀浮粒子PM...日均指標,同時大幅增加指標中「可容許超標次數」至35次,當中有一半的受訪者(50%)表明非常反對政府今次修訂。另有接近六成(59%)的受訪者反對政任以此緊NA.另一個在80公海網的決定。

「關注組」認為,是实政府的修訂方案明顯不符民意,為求令市民同意修訂,政府遷擇在諮詢文 中刻意避談大編度增加「可容許超標文數」的健康補善,並引用歐盟例子混淆視聽。本文將由公 衛生學及環境科學的研究出發,經點駁下政府治據。關注報稅政府立即撤回引入35次「可容 超標次數」的修訂,確保新修訂的空氣質素拍標可違效較大的健康保障。

背景

檢討內容

污染物	平均時間	現時指標撤废上限 (徹克/立方米)	現時容許短標次數
- # (kit ma)	10分鐘	500	3
二氧化硫 (SO ₂)	24小時	125 (政府建議指標: 50)	3
微細懸浮粒子 (Phfus)	1年	35 (政府建議指標: 25)	不適用
	24小時	75 (政府建議指標: 50)	9 (政府建議指標:35)

空氣質素指標檢討關注組有關 2025 __空氣質素指標檢討公眾諮詢之建議書 Air Quality Objectives Review Concern Group's Proposal for the Public Consultation on the 2025 Air Quality Objectives Review

清潔工人職工會

《外判清潔工人在肺炎疫情下的工作處境問卷調查》 2020年2月

一、背景

武漢市於 2019 年 12 月初出現新型冠狀病毒肺炎,2020 年 1 月 22 日,香港和澳門分別確診首宗肺炎個案。截至 2020 年 2 月 16 日,累積確診個案數目為 57 宗,其中一宗為死亡個案。現時疫情持續擴散,除了前線醫護人員外,在各大街小巷為我們進行清潔工作的前線外判清潔工人,他們的個人保護裝備是否足夠亦是我們需要關注的。現時口罩和消毒搓手液等防疫物資嚴重短缺,即使有售價錢亦非一般市民可以負擔得起,何況是一群僅賺取最低工資的基層清潔工友。在現時「一罩難求」的情況下,有工友曾向工會反映,僱主(政府外判清潔服務承辦商)沒有為他們提供足夠的保護裝備,有些要求工友自行購買口罩才可工作,也有工友表示要重複使用口罩,或清洗口罩後重用。為了解有關情況,我們 5 個民間團體及工會,包括:香港天主教勞工事務委員會、清潔工人職工會、清潔服務業職工會,樂施會及醫護行者,於 2 月進行了一項《外判清潔工人在肺炎疫情下的工作處境問卷調查》,訪問了多名於全港 15 區工作的政府外判清潔工人。

各區前線工人保障不足,增加病毒 於社區的傳播風險。

Insufficient protection for front-line workers in various districts increases the risk of the virus spreading in the community.

Impacts on primary care in Hong Kong via sociomedical integration model

透過社醫共生地區工作模式推動基層醫療發展

Hia developed a transdisciplinary health team to improve health access for working poor and ethnic minorities in HK. A health team composed of nurses, social workers, pharmacists, dietitians and physiotherapists. public health can enhance accessibility, availability, and affordability of lower social class. Set up of primary care pharmacy in 2019 is another milestone to increase primary care access.

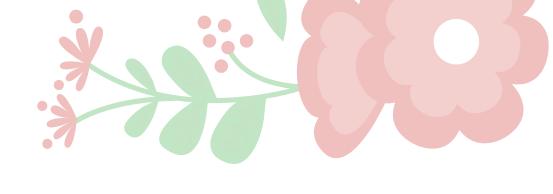

醫護行者成立了跨學科醫療團隊,以改善香港在職貧窮和少數族裔的醫療服務。 跨學科醫療團隊由護士、社會工作者、藥劑師、營養師和物理治療師。公共衛生組成的健康小組可以提高較低社會階層的可及性和可負擔性。 2019年開設的社區藥房亦是增加基礎醫療的另一個里程碑。

Through the sociomedical integration model of work, we leverage our vision to tackle the heath access gap in the community by supporting other NGOs, social enterprises and private corporations to develop programs for primary care.

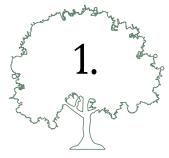

通過社會醫學整合模型,醫護行者通在其他非政府組織,社會企業和私營公司的支持下制定基本醫療保健計劃,利用醫護行者的願景來解決社區中各階層使用醫療服務的差距。
